BERLIN REPORTS RUSSIANS HAVE BEEN CHECKED

RUSSIANS BEARING BRUNT OF FIGHTING.

Fighting Heavy on Rumanian Front. Bad Weather Checks Fighting at Other Places.

(By Associated Press.) London, Jan. 29.—Bad weather prevails on most all European battle fronts, but fighting continues. Berlin reports the Teutonic forces have ended the progress of the Russians on the northern end of the Rumanian front, where the Russians Saturday broke through the Austro-German lines on a two mile front.

The Russians are on the offensive in the Slot-Lipa region in Galicia. There is activity also on the western front, where there are indications of a possible German offensive in Alsace.

Italy Would Free Italians.

Rome, Jan. 29.—Italy wishes to free for all time the Italians now under Austrian tyranny. Francesco Ruffini, minister of public instruction, said to the Associated Press today while discussing President Wilson's peace address. He added:

"Italy and her allies are fighting now for the aims President Wilson expresses, but Austria-Hungary desires to extend oppression of smaller nationalities."

Austrian General Retired.

Amsterdam, Jan. 29.—General Dankl, who commanded the Austrians when the Russians made their celebrated drive on the Lemberg front, has been retired, Berlin dispatches say.

Allies' Transport Sunk.

Berlin, Jan. 29.—A German submarine sank an entente transport ship loaded with troops in the Mediterranean January 25th, the admiralty announced today.

HUNGER STRIKE WAS ENDED

Rather Than Submit to Forcible Feeding Mrs. Byrne Voluntarily Surrendered.

(By Associated Press.)

New York, Jan. 30.—Two birth control propagandists, Mrs. Margaret Sanger and Miss Rania Mondell, were tried in Brooklyn Monday for circulating their literature, while a third, Mrs. Ethel Byrne, sister of Mrs. Sanger, took food voluntarily for the first time as a prisoner on Blackwell's Island. Mrs. Byrne, while refusing to accept nourishment from a glass, did aid in placing a tube in her mouth, according to the prison authorities, and thus brought to a virtual close her "hunger strike," begun last Monday and interrupted a few days ago when she was forced to eat.

Decision was reserved in the cases of Mrs. Sanger and Miss Mondell. The district attorney and counsel for the women were given until February 2nd to submit briefs. The defendants announced they would begin a hunger strike if convicted and sent to jail.

Regarding Mrs. Byrne, a prison bulletin issued Monday night, said her physical condition was good and her mental condition "very good."

MADE PILE BUT NOT BY LEAK

Speculator Who Cleaned Up a Half Million Said It Was Through Foresight.

(By Associated Press.)

New York, Jan. 30.—Bernard Baruch, the Wall street speculator who was a heavy seller just before President Wilson's peace note came out, testified at the "leak" inquiry today that his profits between December 10th and 23rd were nearly a half million dollars, but declared he made the money through his foresight in interpreting speeches by British and German premiers, and not from a "leak."

INVESTIGATION OF LEAK STIRRING WHOLE COUNTRY

PRESIDENT'S BROTHER-IN-LAW WAS EXHONERATED.

Origin of Leak to Wall Street Brokers Hard to Locate—Bolling Firm Lost Money.

(By Associated Press.) New York, Jan. 31.—Finding further examination today of E. F. Hutton showed nothing of the origin of the information on which his stock brokerage firm warned its customers that Wilson's peace note was to be issued, the "leak" investigation committee decided to summon George A. Ellis, Jr., the firm member who wrote the warning telegram. He is now sick in Georgia.

F. A. Connelly of F. A. Connelly & Co., the Washington brokers who furnished the Hutton firm with the note information, arrived today to testify. He declared positively that the leak was not through S. R. Bolling, the President's brother-in-law. Hutton said no one in his firm profited from the "leak," and that Connelly's firm lost.

PEANUTS PAID IN GRIMES COUNTY

J. M. Barron Writes W. A. Withers the Experience of a Few Farmers Around Iola.

Iola, Texas, Jan. 30.—Mr. W. A. Withers, Bryan, Texas—Friend Withers: As I promised you when you were last over here to write you a little of the experience of some of the farmers in this vicinity with peanuts this season, I will endeavor now to comply with my promise. Allow me to say first that what peanuts were planted here the past season was not with a view of selling them, but to feed stock on, but after we got a thrasher a good many of them decided to thresh and sell a part of them at least. So it has been just a few from each farmer that has been sold, and I wish to add also that owing to the fact that no one contemplated selling and had been feeding them to stock, it is hard to get any accurate figures as to the yield. I have a few that are accurate, however, and anyone can verify them by writing to the parties named.

I. D. Darby had two acres of the poorest land on his father's farm in peanuts. We threshed them for him. He paid 12 cents per bushel for threshing and I paid him \$75 for the nuts and he kept five bushels for seed. I have been paying \$1.15 per bushel for them.

Jess Hicks, whose farm is on Cobb Prairie, had four acres threshed. He says they were planted on his poorest land. I paid him \$141.37 for them. He sold all his, but will buy seed from a neighbor that he thinks was better matured than his. He also baled his hay and had 110 bales that he thinks equal to alfalfa, from the fact that a good many nuts are left on the vines and the threshing knocks and blows all the dirt out of them.

A. M. Darby says his peanuts beat 20-cent cotton, but I have not the figures on this.

I have shipped two cars this season and from present indications we will have fifteen to twenty another season. I have personally tried peanut oil for cooking and think it superior to compound lard and really equal to hog lard. Have also tried the meal and find it excellent for any kind of stock.

I believe the industry is only in its infancy and do not think there is any danger of glutting the market for several years at least.

Yours very truly,

J. M. BARRON.

BONDS APPROVED.

Judge J. W. Doremus has returned from Austin, where he had all the records approved for the \$8,000 sewer improvement bonds now being issued by the city. Bids for the purchase of these bonds will be opened at the city hall in this city on February 1st.

THE EVIDENCE IN SPANELL CASE NEARLY ENDED

BOTH SIDES EXPECTED TO REST TOMORROW.

Another Army Officer Testified That Colonel Butler's Reputation Was Good—Did Not Drink.

(By Associated Press.) San Angelo, Texas, Jan. 29.—After hearing two witnesses today, court adjourned the Harry Spannell case until tonight, when Mrs. B. F. Jenkins of El Paso, a new witness, is expected to arrive from Marfa, where she has been visiting.

Both sides expect to complete their testimony tomorrow.

J. H. Youree, veterinarian of the Sixth cavalry, said today that Lieutenant Colonel Butler never drank intoxicants and he never heard him called "bull." He said the colonel's reputation regarding women was good.

FARMERS UNION IS NOW IN SESSION

Expected to Keep Committee at Austin to Look After Interest of Farming Legislation.

(By Associated Press.)

Fort Worth, Texas, Jan. 30.—The Texas Farmers' Union opened its bi-annual meeting here today for a three day session. The farmers are expected to adopt a resolution keeping a committee of the union at Austin the remainder of the present session of the legislature and at all forthcoming sessions. The duty of the committee would be to look after the interests of the farmers in all legislation passed.

The farmers are also expected to go on record as being opposed to any change or revision of the Texas homestead law which would enable the farmers of Texas to receive the same benefits from the farm loan banks as those in other states.

The legislative committee appointed last year is expected to submit its report, which will embrace recommendations for such legislation as the farmers of Texas may need.

THREE NEGROES ARRESTED.

Three cases of aggravated assault have been filed on the criminal docket of the county court, one against Andrew Brown, one against Arch Eaton and another against Sam Jones, all negroes, who have been arrested and made bond for their appearances at the next term of the court.

NEW MOTORCYCLE COP.

The former motorcycle officer has tendered his resignation to the city officials and Mayor W. W. Harris has appointed W. E. Battle to look after the automobile speeders in the interest of the city government. Mr. Battle has accepted and is now on duty. Before his resignation the former officer filed with the city secretary four complaints against speeders and their cases will come up for trial before the mayor some time this week.

NO ONE WAS KILLED.

Report Made to Washington on Fight on Arizona Border.

Washington, D. C., Jan. 30.—In the first official account of the fight between Utah cavalrymen, American cowboys and Mexican raiders at Ruby, Ariz., reaching here Monday, General Funston said there were no American or Mexican casualties.

PROMINENT TEXAS PRINTER DEAD

(By Associated Press.)

Galveston, Texas, Jan. 30.—George Courts, head of the big printing firm of Clarke & Courts, died today in Pittsburgh while attending the American Foreign Trades Council meeting.

IMMIGRATION BILL WAS VETOED BY THE PRESIDENT

OBJECTED TO LITERACY TEST INCORPORATED IN BILL.

Now Intimated That a Fight Will Be Made to Override the President's Veto.

(By Associated Press.) Washington, D. C., Jan. 30.—President Wilson Monday vetoed the immigration bill passed recently by Congress because of its literacy test provisions.

It was the second time that President Wilson has vetoed an immigration bill because of the literacy test and for the same reason similar measures were given vetoes by Presidents Taft and Cleveland.

The President's veto message to the house, in which the bill originated, follows:

"I regret very much to return this bill without my signature.

"In most of the provisions of the bill I should be very glad to concur, but I cannot rid myself of the conviction that the literacy test constitutes a radical change in the policy of the nation which is not justified in principle. It is not a test of character, of quality or of personal fitness, but would operate in most cases merely as a penalty for lack of opportunity in the country from which the alien seeking admission comes.

"The opportunity to gain an education is in many cases one of the chief opportunities sought by the immigrant in coming to the United States and our experience in the past has not been that the illiterate immigrant is, as such, an undesirable immigrant. Tests of quality and of purpose can not be objected to on principle, but tests of opportunity surely may be. Moreover, this test might be inequitable insisted on. One of the exceptions proposed to its application involves a provision which might lead to very delicate and hazardous diplomatic situations.

Might Involve United States.

"The bill exempts from the operation of the literacy test all aliens who shall prove to the satisfaction of the proper immigration officers or the secretary of labor that they are seeking admission to the United States to avoid religious persecution in the country of their last permanent residence, whether such persecution be evidenced by overt acts or by laws or governmental regulations, that discriminate against the alien or the race to which he belongs because of his religious faith.

"Such provision so applied and administered would oblige the officer concerned in effect to pass judgment upon the laws and practices of a foreign government and declare they did or did not constitute religious persecution. This would be, to say the least, the most invidious function for any administrative officer of this government to perform, and it is not only possible but probable that very serious questions of international justice and comity would arise between this government and the government or governments thus officially condemned should its exercise be adopted.

"I dare say that the consequences were not in the minds of the proponents of this provision, but the provision separately and in itself renders it unwise for me to give my assent to this legislation in its present form."

Vote May Be Taken Thursday.

When the message was read in the house it was ordered to lie on the table until Thursday morning and champions of the bill began laying their plans for an effort to override the veto. Chairman Burnett announced Monday night that he would move for a vote Thursday. Two years ago the house lacked only four votes of the necessary two-thirds majority to pass the bill over the veto. The attempt having failed in the house, no action was taken by the senate.

When President Taft vetoed a similar measure because of the literacy test the senate succeeded in overriding him by more than a two-thirds majority, but the house fell short about a dozen votes.

The bill which the President vetoed Monday passed the house last March by a vote of 308 to 87, and the senate in December by 64 to 7.

DEATH PENALTY METED OUT TO TWO NEGROES

CONVICTED OF MURDER OF FIVE PEOPLE.

Two Other Negro Accomplices Convicted and Given Sentences of Life Imprisonment.

(By Associated Press.)

Minden, La., Jan. 30.—Chester Tyson and Mark Peters were found guilty with the death penalty attached and Larkin Stewart and Anderson Heard were found guilty and given life imprisonment here today for killing John Reeves, his wife and three children last Christmas eve for robbery purposes. All are negroes.

MOTHER MADE A TERRIBLE MISTAKE

Mixed Wrong Flour in Pancakes and Four Children and One Grandchild Are Dead.

Kankakee, Mich., Jan. 30.—Mrs. O. K. Meints yesterday by mistake mixed powder with which her husband practiced taxidermy in pancake flour and today four of her children and a grandchild are dead from poisoning.

CRAP SHOOTERS PULLED.

In a raid on a bunch of negro crap shooters last Sunday afternoon in the northwestern part of the city eighteen of the "bone passers" were caught by Constable Baker and arrested. Eight of them were tried before Justice W. W. Gainer today and all pleaded guilty and were fined \$10 and costs each. An amusing incident is always connected with a case of this kind and it was said that four of the bunch tried to hide under a small stove.

Other pleas of guilty in Justice Gainer's court were as follows: Lee Bulmonsky, white, disturbing the peace, fined \$1 and costs; Ed Parker, colored, using a horse without permission of the owner, fined \$10 and costs.

CITY OFFICES MOVED.

The public utilities office at the city hall was moved yesterday to new quarters in the municipal warehouse. City Secretary R. T. Smith has moved his office from up stairs in the city hall to the office formerly occupied by the clerk of public utilities. These changes were mentioned to take place some time ago in the Eagle.

WAS NOT ILL BUT MARRIED

Famous French Sculptor Reported Ill Is Frisky as a Colt and Got Married.

(By Associated Press.) Paris, Jan. 30.—August Rodin, the famous sculptor, instead of being ill, as stated yesterday, was married to Mme. Rose Beurre, according to a Paris newspaper. Rodin is 76 years old. His first wife was the model for the work that won him fame.

STATUS OF ARMED SHIPS AGAIN MAY CREATE A CRISIS

LATEST DEVELOPMENT MAY UPSET PEACE PLANS.

Information Has Reached Washington That Germany Intends to Warn Neutrals Off Entente Craft.

(By Associated Press.)

Washington, D. C., Jan. 31.—Information has reached here that Germany and her allies are considering communicating to the state department a virtual warning that Americans should keep off of armed merchant ships of belligerent nations. This became known following the intimation in official circles Monday that the United States might issue soon a new memorandum setting forth its attitude toward armed merchantmen.

Germany has apparently been paving the way for such a step for several weeks by submitting to the state department a series of statements alleging specific instances in which merchant craft of the entente powers have used offensively against a submarine guns carried ostensibly for offense.

The armed ship question, an unsolved problem throughout all the negotiations over submarine warfare, is involved in practically all the cases now pending between the United States and Germany and over which an admittedly grave situation eventually will have to be faced.

Officials of the American government, however, have adopted a waiting attitude during discussion of moves for peace and still believe that the submarine issue will not be forced to a conclusion as long as there is a possibility of tangible developments toward peace.

SPANELL CASE GOES TO JURY

(By Associated Press.) San Angelo, With arguments continuing, the Spannell case is expected to reach the jury today.

The court this morning excused the venire in the case in which Spannell is charged with killing Butler.

RESOLUTION ON THE PRESIDENT'S PEACE PROPOSAL

NOT UNDERSTOOD TO DISTURB MONROE DOCTRINE.

Neither Military Aggression in Foreign Lands—Disagreement Resolution Also Proposed.

(By Associated Press.) Washington, Jan. 30.—Senator J. Hamilton Lewis of Illinois (Democrat), today introduced a resolution reciting that it is the sense of the senate that the Wilson peace address does not propose doing away with the Monroe doctrine, nor propose military aggression by the United States in foreign lands. He asked that the resolution lie on the table.

A resolution introduced by Senator McCumber would have the senate declare it is unable to agree with Wilson's proposal for "peace without victory."

Washington, Jan. 26.—President Wilson will continue to let the Mexicans handle their own troubles, Secretary of State Lansing announced today.

LANSING DENIES HE IS TO RESIGN

(By Associated Press)
Washington, Jan. 26.—Flat denials were authorized by the White House and Secretary Lansing Thursday of published reports that Mr. Lansing was preparing to resign.

The secretary said he attributed persistent circulation of such reports to an attempt to discredit President Wilson's policies through an appearance of discord within the cabinet.

FIERCE FIGHTING LAST NIGHT ON WESTERN FRONT

FIRST IMPORTANT BATTLE IN TWO WEEKS.

Germans Capture French Trenches on
One Mile Front and Take Five
Hundred Prisoners.

(By Associated Press)
London, Jan. 26.—The first important engagement on the western front in weeks took place last night when the Germans captured French trenches on a one mile front north of Verdun, taking 500 prisoners, according to Berlin claims. Paris says the Germans were repulsed except in a small area.

The Germans continue to advance against the Russians in the Riga region.

That on or about the day and year last aforesaid, the said defendants entered upon said premises and unlawfully ejected plaintiff therefrom to his damage in the sum of Ten Thousand (\$10,000.00) dollars and in addition to his fee simple title which he has to said land, he and those whose estate he owns have had and held peaceable and adverse possession of said land and premises, cultivating, using and enjoying the same and paying taxes thereon, holding and claiming under deeds duly registered for a period of more than five years after the accrual of the cause or causes of action of each and all of the said defendants, if any they have, and continuously for more than five years next before the filing of this suit and that plaintiff and those under whom he claims has had and held peaceable and adverse possession of said premises, cultivating, using and enjoying the same for a period of more than ten years next after the accrual of the cause or causes of action of each and all of the said defendants, if any they have, and for more than ten years continuously next before the filing of this suit, and plaintiff specially pleads the statute of limitation of five and ten years in support of their title to said property.

Plaintiff prays for process, for judgment, for restitution of the above described premises, for damages, that he be quieted in the title to said land and that he have general and special relief, to which he may be entitled, either in law or in equity.

Herein fail not but have you before said Court at its next regular term, this writ with your return thereon showing how you have executed the same.

Witness J. W. Barron, Clerk of the District Court of Brazos County, Texas, this 2nd day of January, A. D. 1917.

(SEAL) J. W. BARRON,
Clerk of the District Court in and For
Brazos County, Texas.

CITATION BY PUBLICATION.

THE STATE OF TEXAS.

To the Sheriff or Any Constable of
Brazos County, Greeting:

You are hereby commanded to summon the unknown heirs of J. T. Robinson and of Eli Wickson, both deceased, and the heirs and legal representatives of each of said unknown heirs, by making publication of this citation once in each week for eight successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Brazos County, to be held at the Court House thereof, in Bryan, Texas, on the first Monday in March, A. D. 1917, the same being the 5th day of March, A. D. 1917, then and there to answer a petition filed in said Court on the 2nd day of January, A. D. 1917, in a suit numbered on the docket of said Court No. 7436, wherein O. L. Tabor is plaintiff, and the unknown heirs of J. T. Robinson and Eli Wickson, both deceased, and the heirs and legal representatives of each of said unknown heirs, are de-

fendants, and said petition alleging in substance as follows:

That plaintiff is a resident of Brazos County, Texas; that said J. T. Robinson and Eli Wickson are dead; that the names and residences of their heirs and the heirs and legal representatives of such heirs are unknown to plaintiff; that heretofore, to-wit: On September 1st, 1916, plaintiff was in possession of a certain tract of land, holding the same in fee simple; that on said day and year said defendants entered upon said premises and unlawfully ejected plaintiff therefrom, and withholds from the plaintiff the possession of same, to his damage in the sum of One Thousand Dollars (\$1,000.00); that said tract of land is described as follows:

All that certain tract or parcel of land lying and being situated in the County of Brazos, and State of Texas, and being a part of the Eli Wickson survey in said Brazos County, Texas, and being more particularly described as follows:

Beginning at a stake set on the northeastern boundary line of said Eli Wickson survey, which said stake is N. 45 W. 120 vrs. from the west bank of the Navasota river, which said stake is also the most eastern corner of a tract of land now owned by said O. L. Tabor; thence S. 45 W. 2000 vrs. and corner with the southern corner of O. L. Tabor's tract, a post set in Buzzard Roost lake for corner, said corner being on the southwestern boundary line of said Eli Wickson league; thence S. 45 E. 3560 vrs. and cross old river; thence with the same course to the west bank of the Navasota river and corner a stake for corner; thence up said river with its meanders to the northeast line of said Wickson league; thence N. 45 W. with said league line 120 vrs. to the place of beginning, containing 700 acres of land, more or less. Same being all of the land in said Eli Wickson league lying and being situated between the other tract of land now owned by said O. L. Tabor and the Navasota river.

That in addition to plaintiff's fee simple title by record in and to the above described tract or parcel of land, plaintiff alleges and shows that he and those whose estate he owns have had peaceful and adverse possession thereof, cultivating, using and enjoying the same and paying the taxes thereon, and claiming under deeds duly registered for five (5) years continuously next after the cause of action, if any, of said defendants accrued, and continuously for five (5) years before the filing of this suit, and that plaintiff and those under whom he claims have had peaceful and adverse possession of said above described tract and premises, cultivating, using and enjoying the same for a period of more than ten (10) years continuously next after the cause of action, if any, of said defendants accrued, and before the bringing of this suit, claiming the same under deeds duly recorded.

And plaintiff specially pleads the

Statute of Limitation of five (5) years and ten (10) years in support of their title to said above described tract or parcel of land.

That the said defendants are asserting some sort of claim or title in and to said premises, the nature of which is unknown to plaintiff, but plaintiff denies that they or either of them are entitled to any such title or claim, and alleges that such claim is a cloud upon plaintiff's title.

Wherefore, plaintiff prays that citation issue in the terms of the law to said above mentioned defendants, and they be served by publication and that upon a hearing hereof an attorney be appointed by the Court to represent said defendants; and that plaintiff recover judgment for the title and restitution of the above described land and premises and for the quieting of his title thereto, and for damages as aforesaid, and for such other an further relief, both general and special, to which they may be entitled in law and in equity.

This action is brought as well to try title as for damages.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, J. W. Barron, Clerk of the District Court of Brazos County.

Given under my hand and the seal of said Court, at office in Bryan, Texas, this 2nd day of January, A. D. 1917.

(SEAL) J. W. BARRON,
Clerk District Court, Brazos County.

"A HOME INSTITUTION"

DENTISTS MUST NOT OBEY PATIENTS

Woman in Berlin Had All of Her Teeth Pulled and Afterward Sued the Dentist.

(Correspondence of Associated Press.) Berlin, Dec. 10.—An unusual court decision here has just had to do with the complaint of a young woman who disliked her own white but tiny teeth and induced a dentist to pull the whole 22 at once and substitute larger and more artistic teeth. She had scarcely received the new ones before she rued the experiment and sued the dentist.

The evidence showed that five of the 22 teeth were altogether sound, that three had only small cavities and that three more had cavities easily filled. At least these eleven teeth should not have been pulled. Though the dentist had protested as much to her originally, she had insisted that they all be extracted.

The court held that the dentist had no right to submit blindly to the wishes of a patient, and that if the patient insisted on an operation detrimental to his or her health, the dentist's duty was to decline to perform it. The dentist accordingly was found guilty of breach of the law pertaining to "good manners."

WIFE OF SITTING BULL IS DEAD

Perished in Fire Which Destroyed Her Shack on Fort Berthold Reservation, North Dakota.

(By Associated Press.) Fargo, N. D., Jan. 26.—Small Woman, former wife of Sitting Bull, the famous Indian chief, is dead on the Fort Berthold reservation, from burns received when a fire destroyed her shack.

RAILROAD IN RECEIVERSHIP.

Marshall, Texas, Jan. 26.—The Marshall & East Texas railroad, 90 miles in length, extending from Elysian Fields to Winnsboro, with general offices here, had a receiver appointed by Judge Gordon Russell in the United States federal court at Tyler yesterday.

FRENCH SUPPRESSING ALCOHOL TRAFFIC

Per Capita Drinking of French People Is Astounding—Reform Means a Big Saving.

Paris, Jan. 1.—Since the government announced its decision to suppress the traffic in alcohol for the remainder of the war, a number of statisticians have come forward with figures showing that the French people may save 3 billion francs annually to help pay off the interest on the war debt if the losses now incurred from indulgence in alcoholic beverages are completely eliminated. The figures take into account not only the actual cost to the consumer of alcoholic drinks, but the cost of crimes due to alcoholism, the distribution of charities to victims of alcohol and the loss of salaries through alcoholic illness or idleness.

French people drink altogether per annum and per capita 40 gallons of beer, 25 gallons of wine, 5 gallons of cider, 1 gallon of alcohol pure or 2 gallons computed in alcoholic drinks, 3 quarts of bitters similar to absinth, and 1 quart of liquors.

The proposed prohibition of the sale of alcoholic beverages will apply to all testing more than 15 degrees or 15 per cent alcohol. It will not apply to what are called in France "hygienic" beverages, such as wine, beer and cider. It will exclude all brandies, vermouths and distilled liquors as they are now sold.

A great many of the distilled liquors testing more than 15 per cent alcohol, it is anticipated, will be reduced so that their sale may be continued.

The prohibition will apply to all whiskeys as well as rum and gin. Whiskey drinking had grown immensely in France during the 20 years preceding the war. American as well as Canadian, Scotch and Irish brands have grown scarce since restrictions were placed on the transportation of unnecessary commodities and prices have almost doubled since the total prohibition of all importation of alcohol in any form excepting for the requirements of the munitions factories.

COUNTY COURT.

The case of Ed Taylor, a negro, charged with aggravated assault which was to have been tried in the county court today was continued until the April term on application of the attorney for the defense.

STAGGERED AWAY FROM CAR THEN BACK AND FIRED

BETWEEN TIME OF SHOTS MAN CRIED "OH MY GOD."

So Testified Lady in Spannall Case, Near Whose Home Butler and Mrs. Spannall Were Killed.

(By Associated Press.) San Angelo, Texas, Jan. 27.—Mrs. Pat Murphy of Alpine was the first witness for the state on rebuttal this morning. She testified that the shooting of Mrs. Harry Spannall and Colonel Butler, for which Spannall is being tried, took place near her home. She said that when the first shots were fired she went on the porch and saw a man stagger away from the Spannall automobile. This man, she said, cried, "Oh, my God," and then staggered back to the car and more shots were fired. She testified that she was sure R. N. Pittman, who yesterday testified he saw first a man and then a woman shot, was not in his yard when the shooting took place. The defense objected when the state tried to introduce the answer Spannall made in jail when Sheriff Walton of Brewster county asked him, "My God, Harry, what have you done?"

Lieutenant Colonel Muehert of Sherman, Texas, of the Fourth Texas Infantry, said he was in front of the hotel and heard Spannall "command" Butler to get in the automobile.

WELLBORN DEFEATS FRANKLIN.

In a hard fought game of basketball played on the Hearne High School court Saturday afternoon Wellborn won over Franklin by a score of 26 to 17. Both teams played good ball. Franklin made the first goal, but this was soon followed by Gandy pitching one for Wellborn, after which Wellborn got the lead and kept it throughout the game. The line-up:

Wellborn. Franklin.
Jones. Sanders
Center.

Graham. F. Smith
R. Gandy. Walker
Forwards.

Lee. Wilder
Foster. B. Smith
Guards.

Substitutes—Wellborn, Gandy for Graham.

SANG WAY INTO UNITED STATES

Steering Passenger From Italy With Tuneful Voice Proved He Would Not Be Public Charge.

(By Associated Press.) Boston, Mass., Jan. 26.—Dominic Pacifico, 30 years of age, sang his way into this country Thursday. When he arrived recently in the steerage of the steamer Cretic from Italy he was held up by the immigration officials because of his imperfect physical condition.

"Give me a chance," said Pacifico. "I am an opera singer."

Before the board of special inquiry Pacifico sang an aria from "La Tosca." At its conclusion applause echoed through Commonwealth pier and the board of inquiry unanimously voted that it was not likely Pacifico would become a public charge.

PAVING 25TH STREET.

Curb and gutters are being laid today on 25th street from Washington avenue west to the H. & T. C. railroad track. The street has already been graded and when the curb and gutters are completed the paving will be started.

WILL OPEN SALES ROOM.

Frank Webb to Have Elegant Place to Show Automobiles.

A modern automobile agency is to be opened in Bryan by Frank Webb. He has leased sales room quarters in the Plasek building on 26th street next to St. Andrew's church. He will have an entrance from 26th street and his floor space will be 36x65 feet.

A concrete floor will be put in the building, the walls recalcined and tinted and an elegant entrance of paneled plate glass put in place of the present doors. The entire place will be made modern and up-to-date in every particular and equal to the auto show rooms of the larger cities.

Mr. Webb will not conduct a garage in connection with the business, but devote all his energies to the selling department. He will carry in stock the Buick, Oakland and Maxwell. When open for business he will appreciate a call from his friends.

A. & M. SHUT OUT DANIEL BAKER

Ran Up Thirty-Six Points on Visitors and Never Permitted Them to Score.

A. and M. basketballers stepped away Thursday afternoon with the first shutout in the history of basketball at the college, when they defeated the Daniel Baker five by the score of 36 to 0. The Hillbillies had two opportunities to score from fouls, but failed to ring them. The game started with fast but inaccurate passes by both teams, 10 points only being scored in the first period.

Newt Settegast at center was perhaps the brightest star of the A. and M. collection. He rung several baskets for the Farmers. Gilfillan replaced Litterst at the beginning of the second period and added 12 points in that half. Griesenbeck made four goals and Litterst one.

A. and M. rests until Monday and Tuesday, when they meet the Baylor Baptists.

U. S. TROOPS AND MEXICANS IN SHARP FIGHT

BATTLING AMONG ROCKS NEAR INTERNATIONAL LINE.

No Americans Reported Killed But Several Mexicans Have Been Seen to Fall.

(By Associated Press.)

Tucson, Ariz., Jan. 27.—Lying in the rocks close to the international line five miles south of Rouby, Ariz., forty members of Troop E, First Utah cavalry, under Lieutenant Arns, today are battling with Mexicans soldiers, who yesterday fired on American cowboys as the latter rounded up cattle on American soil.

The cowboys, though outnumbered, returned the fire and the Utah troops went to their assistance.

No Americans are yet reported killed, but several Mexicans have been seen to fall.

The Mexicans are said to be from the Carranza garrison at San Saba. Reinforcements are being rushed from Nogales, Ariz.

PATCHING TEXAS CONSTITUTION

Thirty-Five Changes Proposed in Both Houses Since Assembling of the Present Legislature.

(By Associated Press.) Austin, Texas, Jan. 29.—Thirty-five proposed amendments to the state constitution have been so far introduced in both branches of the legislature, and while none of them so far has reached the executive department, there is every indication of quite a large number of these joint resolutions being adopted. Favorable committee reports have already been made on several of them, including a proposition to increase the governor's salary to \$10,000 a year, abolish the fee system in Texas, creating conservation and reclamation districts, exempting cotton mills from taxation for fifteen years, proposing a single tax system for Texas, woman suffrage, providing for a state printing house and free text books for children in public schools.

One of the greatest blessings that could come to this continent would be the checking of mischievously false and absurd news about things that control prices of farm products. Only a few individuals, comparatively, are benefitted by them, while producers and consumers are greatly damaged. These manipulators are engaged in making it appear that the middle men, the legitimate dealers, cause the high expense of living. We cannot do without these middle men, the legitimate dealers, but we would all be made happy if we could get rid of the manipulators.

WACO VISITED BY \$125,000 FIRE

(By Associated Press.) Waco, Texas, Jan. 29.—One of the most disastrous fires had here in many months broke out early Sunday morning in a building on Mary street near Seventh, owned by William Cameron & Co. and occupied by the McCrary Transfer and Storage Company.

A conservative estimate places the damage at \$125,000, including the damage to the building where the blaze started and two adjoining buildings, also belonging to Cameron & Co. The buildings were insured for half their actual value.

Among the contents of the McCrary warehouse was \$5,500 worth of white paper owned by the Waco Tribune and insured for \$7,500.

Just before the east wall of the building where the flames started fell, Fire Chief Baurie had ordered twenty firemen from the roof, which went down with the wall.

LEAK INQUIRY WAS RESUMED

Banker Named by Lawson Denied Connection With Secretary of the Treasury McAdoo.

(By Associated Press.) New York, Jan. 29.—On the resumption of the "leak" inquiry today, Pliny Fisk of New York, the banker named by Thomas W. Lawson in the mysterious "cabinet member-senator-banker" investment trio, denied he was ever interested with Secretary McAdoo or any banker in joint stock accounts. He said his firm never had received any advantages from the treasury department, but later admitted the Federal Reserve Bank leased offices in a building owned by his firm on his suggestion to McAdoo.

WEATHER BULLETIN

Washington, D. C., Jan. 27.—Last bulletin gave forecast of disturbances to cross continent Jan. 24 to 28 and 29 to Feb. 2; warm wave Jan. 23 to 27 and 28 to Feb. 1; cool wave Jan. 26 to 30 and 31 to Feb. 4. The intensities of these storms will be very considerably greater than the usual average. An unusually long and severe period of great winter storms seems to have been arranged by planetary combinations to cover the time from Jan. 19 to Feb. 10 and in some sections of the continent our readers will get tired of this long spell of weather, forced onto us by the gods of the ancient sun worshippers.

However, there is one hope. Indications are that precipitation will be as disagreeable as great floods made them. But tornadoes may come to torment a few small localities. Following this long drawn out series of severe storms we are expecting a long period of unusually quiet and pleasant weather with less than usual precipitations.

Next warm wave will reach Vancouver about Feb. 2 and temperatures will rise on all the Pacific slope. It will cross crest of Rockies by close of Feb. 3, plains sections 4, Meridian 90, great lakes and Ohio valleys 5, eastern sections 6, reaching Newfoundland about Feb. 7.

This will be a continuation of the great storms heretofore described. Not much precipitation for a great storm. A cold wave, moving eastward, is expected to cross Meridian 90 not far from Feb. 7 and blizzard storms are expected. The February cold wave storms are sometimes very disagreeable and dangerous to the welfare of man and beast.

Indications are that warmest parts of February will occur during the 5 day period centering on 5 and 23 and a wave of high temperatures near March 5. Cold waves are expected to cross Meridian 90, moving eastward, during the 5-day periods centering on Feb. 8, 13, 19, and 26, and March 2. With exception of a few small localities, precipitation of February is expected to be less than the usual average.

One of the greatest blessings that could come to this continent would be the checking of mischievously false and absurd news about things that control prices of farm products. Only a few individuals, comparatively, are benefitted by them, while producers and consumers are greatly damaged. These manipulators are engaged in making it appear that the middle men, the legitimate dealers, cause the high expense of living. We cannot do without these middle men, the legitimate dealers, but we would all be made happy if we could get rid of the manipulators.

It is reported that Rev. Irl R. Hicks of St. Louis, is dead. For 3 years, he was among the most prominent planetary long range weather forecasters and had an extreme following. His system of forecasting was based on the equinoxes of the planets, worked out by Prof. Tice prior to 1875, and has some good merits. But neither of them discovered the most important principles of planetary meteorology.

ONE WEEK WILL SEE ALL TROOPS ACROSS BORDER

PERSHING'S ENTIRE FORCE IS NOW ON MOVE.

General Funston Has Announced the Location of the Troops After They Reach United States.

(By Associated Press.) Washington Jan. 29.—The last of the American troops are expected to cross the border a week from today, according to dispatches from General Funston.

Troop Locations.
San Antonio, Texas, Jan. 29.—General Funston today announced that General Pershing, with the Fifth and Seventh cavalry and the Sixth, Sixteenth and Seventeenth infantry, will be stationed at El Paso; the Eleventh and Thirteenth cavalry will come to San Antonio and the Twenty-fourth infantry will take station at Columbus, N. M.

DISTINGUISHED MINISTERS HERE.

Rt. Rev. George H. Kinsolving of Austin, bishop of the diocese of Texas, visited St. Andrew's parish of this city officially yesterday and filled the pulpit of St. Andrew's church at the 11 o'clock service. His sermon was eloquent and scholarly and much enjoyed by the large congregation present.

At the evening service the pulpit was occupied by Rev. Peter Gray Sears, rector of Christ church, Houston, who spoke at College at 11 o'clock. He presented to the Bryan church in a forceful way the campaign being made to raise a fund that will provide an annuity for aged clergymen of the Episcopal church when they are superannuated. It was a splendid appeal. He was followed by Bishop Kinsolving, who also made a few earnest remarks on the subject of this endowment fund.

Bishop Kinsolving and Dr. Sears were entertained in the home of Mr. and Mrs. J. O. Chance during their stay in Bryan.

WOMAN SUFFRAGE FOR TEXAS IS BEFORE SENATE

RESOLUTION INTRODUCED BY SENATOR LATIMORE.

Fort Worth Man Would Permit the Women to Vote in All Primary Elections in Texas.

(By Associated Press.) Austin, Texas, Jan. 29.—Senator Latimore today introduced a bill providing that women may vote in all Texas primary elections.

The fourth week of the legislature opened today with the calendars of both houses congested and little work done. The week's interest centers in the final vote on submission by the house Friday.

ALL-STAR CAST WILL OFFER SHAKESPEARE.

Notable Organization Will Present "Merchant of Venice" Wednesday.

The most spectacular Shakespearean production that has graced the American stage in many a season will be seen here when John E. Keller and his notable organization, including Charles B. Hanford and Khuya St. Albans, appear at the Colonial Theater Wednesday night, January 31st, in "The Merchant of Venice." The scenery was specially designed for the Keller organization and is said to be magnificent and complete in every detail. A feature of the production is the music, which has been composed by Hans Von Deick, the celebrated European composer. Seats are now selling.

WHAT YOU GIVIN' US?

Local business men and planters met at the Brenham court house last Saturday and discussed ways and means of increasing the peanut acreage in Washington county. They have agreed to furnish seed to the planters of that county at cost and it is their idea when the crop is gathered to have the words "Made in Brenham" stamped on each peanut. Over here in Grimes county we are going to have a good acreage planted in canteloupes and if we have the success in raising them we did last year, we can have a chance to swap canteloupes for peanuts or peanuts for canteloupes, which ever way you like. If the Brenham Press man can aid us in finding somebody who is going to have plenty of honey along about peanut and canteloupe time we will invite the Bryan Eagle editor down and stuff him so plumb full of good things that he won't be able to wabble for a month. —Navasota Examiner.

The Eagle editor is right there for all the good things coming his way, but we must confess we feel a little shyness in the region of the equator at a combination of peanuts, canteloupes and honey. We are at a loss to know whether the Examiner man has something treasured up against us, or whether he has discovered a combination of the above three articles under the stress of the present food situation that has solved the problem of the high cost of living.

"THE HILLS O' HOPE."

I have been reading the little book by Will D. Muse, so aptly named "The Hills o' Hope." As I have read the book I have wondered which of the poems I should reprint to give pleasure to the readers of this column, and there are so many that are good that I find it impossible to settle upon the one, so instead of using a poem I shall give you an excerpt from the introduction of the poems. Here it is:

"It is love and hope and trust that weave the straws and twigs into a nest among the branches of the apple tree, and where the brown thrush sits and sings. It is love and hope and trust that cement them together into a soft swaying basket for the little ones to come; and it is love and hope and trust that ply the golden shuttle in the loom of life, weaving together the brittle thread of days into the warp and woof of the heart."

It is ever so, and always will be, as long as life shall last. Our eyes are ever looking toward the far-off Hills o' Hope, and our restless feet are always searching for the winding pathway that leads to the House of Love. —Judd Mortimer Lewis.

The administration's defense measure, carrying appropriations of \$800,000,000, is refreshing to say the least. They are now at work prorating this huge sum among the different departments—army, navy, coast defense, etc., and the way they talk about hundreds of millions for this or that purpose reminds one of the old-time Populist orator and his billions and trillions. Our government has come to the place where the members of Congress can saddle a billion dollars upon the backs of the people and never bat their eyes. God help us.

Leaders of Congress are now of the opinion the administration's legislative program will be completed in time for adjournment on March 4th. The people would certainly like to have surcease from an extra session. They have learned that when Congress is in session the fur flies.

President Wilson has vetoed the immigration bill because of the literacy test prescribed in same. He believes such test if exercised would result in diplomatic difficulties.

The house of the Texas legislature has passed a resolution requiring voters to be citizens. The object of the resolution is to cut off thousands from voting who are not citizens of the United States and not entitled to vote. The representative from El Paso, in discussing the resolution, said there were Mexicans who voted in Texas before the Rio Grande water quit dripping from their shanks.

The Eagle is thoroughly convinced that the farmers of Brazos county would profit largely by planting a substantial acreage to peanuts. They would not only receive handsome returns in cash for them, but would be contributing their part to the cotton acreage reduction and thereby help the whole country.

THE DISTRICT OF COLUMBIA AND PROHIBITION.

Senator Sheppard's idea to make the District of Columbia dry is having hard sledding. Senator Underwood of Alabama has announced his intention of introducing a bill allowing the people of that territory to vote on the matter. The people of the District of Columbia are entitled to the same consideration that is granted to the people of the various states concerning laws on subjects so closely related to their daily affairs as the question of prohibition, for or against.—Navasota Examiner.

When the Sheppard bill was under consideration in the senate an amendment was offered proposing to give the people of the District of Columbia a referendum vote on the proposition. It was voted down. Senator Sheppard voted against it. His action led the Houston Post to ask him the direct question, "if he opposed submission in the District of Columbia, did he oppose it in Texas?" Up to this time the Eagle has seen no answer to the question from the junior senator from Texas.

The Eagle editor, in discussing this matter with one of Bryan's leading educators, a staunch prohibitionist but a man of liberal judgment, asked him if he thought it right for the members of Congress, senators and representatives, none of whom resided in the District of Columbia, to saddle prohibition on the people of that district without giving them an opportunity to vote on it? His reply was that he had given the subject little thought, but it looked like fair play would demand that they be given a hearing.

The Sheppard bill has already passed the senate and it is said will easily pass the house. Sentiment, however, seems to be crystallizing on the point of giving the people the privilege of expressing themselves, and it may be that before it comes up in the house, the Underwood bill, or some other bill, will be passed referring it to a referendum vote of the people who are to be directly affected.

The Eagle believes that is right. Let the voice of the people who are most vitally interested control in all such matters.

GIVE THE PEOPLE A LOOK.

Editor George Watford of the Lufkin News handles the matter of "silent methods" practiced by the officials of his county and city without gloves, and it is so applicable to this city and county and practically all others in Texas, the Eagle reproduces it.

City and county officials absolutely do not take the people into their confidence in the matter of finances as they should. The people want to know these things. They want to know the exact amount of money collected by the city and county and then they want an itemized statement of all expenditures. They want to know the sum total of their taxes and the sum total of what they get in return. The people understand this publicity will cost money, but they are perfectly willing to pay for it. The Lufkin News says:

"An effort will be made by the Texas Press Association to have the present legislature pass an adequate publicity law, one that will meet the demands of a growing state, to take the place of the present makeshift, which was passed possibly fifty years ago, when there was not an average of one newspaper to each county in Texas. The passage of such a law as proposed is one of the crying needs of the times for several reasons. Legal notices that are now posted on bulletin boards should be published in newspapers where people will read them. Every act of the county commissioners should be published as paid advertising, and every dollar of the public's money should be accounted for through the public prints and paid for. Such a law would be a good thing in more than one way. It would inform the taxpayers as to the disposition of their money and at the same time make county officials more careful in the expenditure of public funds, as well as put an effective check on official grafting. Here in Angellina county about every two years the district judge appoints a finance committee to audit the books of the various county officers. The work usually requires two or three weeks, at an expense to the taxpayers of several hundred dollars. Their report is finally made and pigeonholed, and not one citizen in a hundred ever knows what the report contains. They pay for the auditing and should know what they are paying for—but they don't. The city of Lufkin recently employed an auditor at an expense of several hundred dollars to audit the books of the city. We are told on the quiet that this auditor saved the city more than the amount paid him, but what do the taxpayers know about it? Not a line of that report has ever been made public, and the people who paid the auditor are as much in the dark as to his findings as is the emperor of China."

THERE WAS A "LEAK."

That "leak" investigation now being made by a committee from Congress concerning charges that Wall street brokers were advised of the President's peace note before it was given out, profiting millions thereby, is getting to be ugly indeed. The testimony brought out at the hearing Tuesday leaves little doubt but that certain brokers were furnished a forecast of the note and they turned the information into profits running into the millions. Following is a summary of the developments to date:

From the files of a Wall street brokerage house congressional inquirers Tuesday brought to light private and confidential telegrams regarded in some quarters as definitely indicating that there was a "leak" on President Wilson's recent peace note.

The most sensational telegram, containing a brief but remarkably accurate forecast of the contents of the note, was sent by E. F. Hutton & Co., one of the largest brokerage houses in the street, over its private wires to scores of other brokers with whom it did business throughout the country, on the afternoon of December 20th, more than three hours before the first copies of the note were handed to newspaper men by Secretary Lansing.

At the time the Hutton message was sent, according to the testimony of Secretary Lansing before the committee in Washington, no one in this country save persons connected with the preparation and dispatch of the note, had as much information regarding its contents as the message revealed. The note previously had been sent abroad in code. Publication of the note followed transmission of the Hutton message to various brokers by more than ten hours.

Information on which the message to brokers was based, Edward F. Hutton, head of the firm, testified, came in another message, now missing, from F. A. Connelly of F. A. Connelly & Co., a Washington brokerage house, in which R. W. Boling, a brother-in-law of President Wilson, is a partner.

JOHN B. NEELEY DEAD.

Pioneer Resident of Wellborn Passed Away January 27th.

On Saturday morning, January 27th, 1917, at 6 o'clock, Mr. John B. Neeley passed peacefully away at his home at Wellborn, brief mention of which was made in the Eagle on Saturday afternoon. Mr. Neeley had been in feeble health for some time and for several weeks his death was not unexpected. Forewarned is not forearmed, however, in cases of bereavement of this kind, and though his loved ones knew the end was near, the blow did not fall less heavily and none of the sting was removed from their sorrow.

Mr. Neeley was a native of Tennessee, born October 7th, 1852, making him 64 years, 3 months and 20 days of age at the time of his death. He came to Texas with his father's family at the age of 7 and had been a resident of the Wellborn community continuously since. He was united in marriage on January 12th, 1881, to Miss Bettie Dickerson of Wellborn and is survived by his good wife and five children, namely: A. G. Will and Guy Neeley, Mrs. M. S. Dew of College Station and Mrs. T. Farquhar of Ennis. He is also survived by one sister, Mrs. J. A. Parker, and one brother, Robert Neeley, both of Wellborn. The profound sympathy of the entire community goes out to the bereaved ones in their great sorrow.

Mr. Neeley was a good man and citizen, was quiet and unassuming, attending strictly to his own affairs at all times. He was honorable and upright in all his dealings, and by his spirit of fairness and justice, won and held to his death the confidence and esteem of all. He was a member of the Baptist church and lived a consistent Christian life.

The funeral was held from the family home on Sunday afternoon with interment following at 3 o'clock at Minter Springs cemetery. Rev. J. J. Tatum of this city conducting the funeral services. A large number of his old friends and neighbors were present to pay him their last sad tribute of respect.

DEATH OF J. H. PERRIN.

Mr. J. H. Perrin, a former resident of Bryan, died Thursday night at 10:45 at his home in Albuquerque, New Mexico. His death was due to pneumonia.

While a resident of this city Mr. Perrin made many friends who will be much grieved to hear of his death. He is survived by his wife, there being no children.

Mrs. Perrin is a sister of Mrs. D. C. Vick of this city.

FELT LIKE 90, NOW LIKE 21.

Like a weak link in a chain, a weak organ enfeebles the whole body. Weak kidneys lower vitality. A. W. Morgan, Angola, La., writes: "I suffered with pains in the back. OLD TIME ENGINEER GAINED 20 POUNDS

Wouldn't Take All the Money in the Universe for the Good Tanlac Did Him.

Everybody in Jacksonville, Fla., either knows or has heard of Engineer Charles J. Weeks, who runs the Seaboard Air Line fast train, "Fox," between Jacksonville and Tampa. Mr. Weeks bears the distinction of being the second oldest engineer in point of service with his road, having been with the company thirty-three years. He is a man of very temperate habits, few words and strong convictions. According to his own statement he has never taken a drink or used tobacco in any form. He not only has a splendid record for efficiency as a railroad man, but is held in the very highest esteem by his fellow citizens in Jacksonville.

"I've gained twenty pounds on seven bottles of Tanlac and feel as well and happy as I did when a boy," said Mr. Weeks to the Tanlac representative who had called by special invitation at his attractive residence, 2139 Lydia street, for his statement, a few days ago.

"For twenty years I suffered with nervous indigestion of the worst sort," he continued, "and at times during the past fifteen years I didn't think I would last much longer. To tell you the truth, I finally reached the point where I didn't much care whether I lived or died."

"After eating I would have so much gas on my stomach and would get so puffed up I couldn't hardly fasten my clothes on. My food would sour and curdle, and I would have heartburn so bad I would feel like a piece of hot iron was lying in my stomach, and the pains were simply awful. To tell you the truth, I just don't know how I lived. I could eat no meats or sweets of any kind, and for days I would have to live almost entirely on bread and water. God only knows how I suffered. I just can't describe it. The pains around my heart and the palpitation were so intense I thought at times I must have heart trouble. I couldn't find anything to relieve my troubles, although I tried hard."

"Tanlac was so highly recommended to me that I bought a bottle and cannot express in words how grateful I feel for the good it has done me. Just think of it—a few bottles of this medicine has made me feel better than I have in fifteen years—it seems almost unbelievable, but it's the plain, simple truth. I can now eat anything placed before me, and everything agrees with me perfectly, and I enjoy my sleep as much as a child, and I'm feeling fine in every way. I feel so nimble I think I could be a good runner a tight foot race."

"Tanlac has entirely relieved me of the things that troubled me so long, and I just don't know how to express my gratitude. I wouldn't be in the same shape I was in before for all the money in the universe."

"If anybody doubts my statement you can just tell them to write me a personal letter and I'll answer it." I'll be only too glad to have the opportunity of telling them what this great medicine has done for me."

Tanlac is sold in Bryan by Read & Stewart and J. P. Royder.

A WOMAN'S EXPERIENCE WITH GRIPPE.

When a cough or cold hangs on and you have aches and pains that are hard to define, it is likely that gripple is taking hold of your system. Mrs. J. A. Rodgers, Switzer, S. C., says: "I am susceptible to colds, often ending in gripple. In this case I have found Foley's Honey and Tar to prevent doctor bills." For sale by M. H. James.

333 MILLION PROFITS MADE IN ONE YEAR

United States Steel Corporation During 1916 Did Gross Business of \$1,250,000,000.

(By Associated Press)
New York, Jan. 31.—Compilations today show that in making net earnings of 333 million dollars last year the United States Steel Corporation did a gross business of 1 1/4 billion dollars.

MIXED SPORTS.

The open house given by the Young Men's Athletic Club last night was attended by a large crowd and enjoyed by all who attended. The program consisted of a battle royal between four colored huskies, two boxing matches by four local colored slugs and a wrestling match between two local white wrestlers.

But it takes little grains of sand to enable some men to take little drops of water.

The Nation's Highest Mark of Brewing

BECAUSE of BUDWEISER'S sterling quality and goodness, it has made millions of friends. On land or sea—at home or abroad—this beer is justly honored as "the greatest of them all." KILLED ON WAY TO HEAR GLUCK

Bellville Car Overturned Near Houston and One Young Lady Lost Her Life.

A happy party en route from Bellville to Houston to hear Alma Gluck singing was turned into one of sorrow when the auto in which they were riding went into the ditch a short distance south of Satsuma, on the Cypress road, about 4 o'clock Tuesday afternoon, resulting in Miss Hildegarde Schauerhammer receiving a broken neck, dying about 15 minutes later.

Miss Erne Westerman, who was driving the car, was slightly bruised and suffered considerably from the shock.

The young women were accompanied by Ernest Laas and J. F. Esterak, all well known residents of Bellville. The party left there at 1 o'clock Tuesday afternoon for Houston.

Word was hurriedly sent to Houston and C. J. Wright's ambulance made a record run to the scene, having a good road all the way. The body of Miss Schauerhammer and Miss Westerman, together with the two young men, were brought to Houston.—Houston Post.

ART LEVEE CLOSED.

The art levee given at the home of Mr. and Mrs. Tyler Haswell on Saturday and Monday afternoon and evening, was a decided success from every standpoint. It was given by the rural life committee of the Woman's Club and a neat sum was realized. The

pictures shown were painted by Prof. Gideon of the State University, formerly of the A. and M. College, and who was married in this city to Miss Sadie Cavitt, daughter of Dr. and Mrs. J. W. Cavitt. In the collection were a number of scenes in and around Bryan, which gave them added interest.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

We will save you money on your Groceries. Give us your next order and be convinced.

IMPORTANT CONFERENCE AT GERMAN HEADQUARTERS

GERMAN EMPEROR WAS FIFTY-EIGHT TODAY.

Arsenal at Dresden Blown Up and One Thousand Women and Girls Were Killed.

(By Associated Press.) Berlin, Jan. 27.—Today is Emperor William's birthday and an important conference is being held at the German great headquarters, with Emperor Charles of Austria-Hungary participating.

Arsenal Blown Up.

Paris, Jan. 27.—The Dresden arsenal was blown up and one thousand women and girls killed, according to a letter taken from a captured German soldier, dated December 30th. The letter said the authorities were keeping the explosion a secret.

Allies Make Gains.

London, Jan. 27.—Berlin declares the French have made no headway in attempts to regain the mile of trenches which the Germans claim to have captured yesterday.

The Russians, with heavy reinforcements, apparently have stemmed the German advance in the Riga region.

The Rumanians claim to have driven back the Teutonic forces after an eleven-hour battle south of Kasino.

MAIL CARRIER CHANGE.

A. H. Scott, United States mail carrier between Bryan and Edge for a number of years has sublet his position with the government to V. T. Echols. Mr. Echols took charge of the position Thursday.

LIQUOR CROOKS AND DEPUTIES IN BATTLE.

Ringling, Okla., Jan. 27.—Men smuggling liquor into this state from Texas fought deputies early today and Deputy Sheriff Hart and one smuggler were wounded.

VILLA FORCES MET SERIOUS DEFEAT

El Paso, Tex., Jan. 27.—Reports received today by government agents say Murguia defeated Villa at Lajunta, Villa losing two hundred men and supply trains.

B. B. A. 26, CALVERT 12.

The Bryan Baptist Academy defeated the Calvert High School yesterday on the Bryan Baptist Academy grounds in a basketball game by a score of 26 to 12. The Calvert High put up a good game, but was outclassed by the Bryan Baptists.

ENFORCED SAVING PROVES HELPFUL

Youthful Workers in Germany Forced to Save to Prevent Waste and Extravagance.

(Correspondence of Associated Press.) Berlin, Jan. 1.—Enforced saving for youthful workers, which was instituted by the military authorities a few months ago as a check to extravagance and dissipation, has resulted in Greater Berlin alone in a saving of more than a million and a half marks already. Of this sum, something less than half a million marks has been withdrawn from the savings banks by the workers, a third of whom have been able to convince the authorities that they need the money for legitimate purposes.

The investigations attendant upon such withdrawals show that the wages for youths now range from 20 to 70 and more marks a week, averaging in the neighborhood of 30 odd marks a week. The amount of money that has been laid aside, as well as the general satisfactory condition of the workers, convinces the authorities that the compulsory saving ordinance was an altogether wise move.

WHEAT DROPPED ON PEACE RUMOR

(By Associated Press.)

Chicago, Ill., Jan. 27.—Peace rumors today caused wild excitement in the wheat pit and a decline of 7 cents in that cereal.

PITTSBURGH SWEEP BY DESTRUCTIVE CONFLAGRATION

FOUR FIREMEN WERE SERIOUSLY HURT.

Fire Occurred in Retail Business District, With Loss of Three and a Half Million Dollars.

(By Associated Press.) Pittsburgh, Pa., Jan. 27.—Fire in the retail district today destroyed the Grand opera house, the Frank & Seder department store, Hilton Clothing Company and a dozen smaller concerns, with a loss of \$3,500,000. Four firemen were seriously hurt and a dozen others injured.

FROST-McLELLAN.

R. C. Rost and Miss Erie McClellan both of Giddings were married in this city yesterday afternoon at the court house, Judge J. T. Maloney officiating. Both parties are well known in Giddings and are residents of that place. They returned to Giddings yesterday afternoon where they will make their future home.

NEW MASONIC BUILDING.

The Navasota lodge of Masons yesterday purchased from Miss Kate Woodward the lot on the corner of Washington avenue and Williams street, the deed to the property being recorded yesterday. The lot is 50x100 feet.

Plans for the immediate erection of a modern three-story structure will be called for and the building will be pushed to completion as fast as possible.—Navasota Examiner.

AMERICAN TROOPS ARE UNDER WAY

Pershing Expedition into Mexico Has Served Its Purpose and Is Now Being Withdrawn.

El Paso, Texas, Jan. 27.—American troops started north from the field headquarters at Colona Dublin at dawn today, according to reports received in Juarez and at Columbus, N. M. The Juarez report said it is believed the entire expeditionary force would be on the march during the day.

Withdrawal Confirmed.

Deming, N. M., Jan. 27.—Confirmation of the withdrawal of American troops from Colona Dublin was received here this afternoon from Columbus. No troops have reached the border yet, it is said reliably, except the sick and incapacitated, who were brought in on motor trucks.

JUST LIKE JOE WREN.

Postmaster Joe Wren a couple of years ago put in all-steel equipment of postoffice boxes and fixtures. He has been well pleased with the outfit. Some time ago the company manufacturing these outfits asked him for a testimonial and one of his photographs. The testimonial he gladly gave, but he had no photo except a postcard taken with Mr. F. M. Bell's little girl at Zulch. He received the other day a handsomely printed piece of advertising matter gotten out by the company, and occupying a prominent place was his testimonial, and there, natural as life, was his picture, with Miss Bell standing by his side. He was the only Texas postmaster represented.—Normangee Star.

BONNANO-TRUSCION.

Pietro Bonnano and Miss Lena Truscion were married today at St. Josephs Catholic church in this city. Rev. J. B. Gleissner officiating. Both the young people were reared in this county and are from prominent Italian families. They will reside on the groom's farm near Bryan Junction.

Czar Building Large Fleet of Submarines to Give Battle to German U Boat Squadron.

(By Associated Press.)

Newport News, Va., Jan. 26.—Russia is building a large fleet of submarines with which to combat the German U boats, according to a letter received Thursday by Mayor Moss from B. B. McAlpine, an American, who said he was supervising the work at Reval.

Several of the craft will be ready in the spring, McAlpine stated, and are being especially designed for long voyages.

SPANELL CASE DRAWING ON TOWARD CLOSE

DEFENSE CLOSED TESTIMONY TODAY.

Many Witnesses Swore That Colonel Butler's Reputation as a Heart Smasher Was Bad.

(By Associated Press.) San Angelo, Texas, Jan. 26.—The defense rested today in the Harry Spannell case and the state began rebuttal, announcing that it probably would be late tomorrow before it finishes.

Private Granger of the Sixth cavalry, Butler's regiment, testified Butler had been nicknamed "Bull" Butler by the soldiers, and that his reputation as "a woman chaser" was bad.

A. H. Newell of Alpine said shortly before the shooting he was talking with Colonel Butler when the Spannells came out of the hotel, got in an automobile and Spannell commanded Butler to get in. Mrs. Spannell was pale, he said, as they drove away. Soon afterward he heard shots.

James Dodd of Alpine testified that the automobile passed him and he heard Butler say, "Mr. Spannell, will you let me explain?"

Judge Turney of Alpine was the state's first rebuttal witness. He said Butler's reputation regarding attentions to women "was good."

Dr. B. F. Berkley, J. D. Jackson, J. W. Yates and County Attorney Mose State of Alpine all said Butler's reputation was good.

MAN REVIVED AFTER BEING DECLARED DEAD

WAS BROUGHT AROUND BY AID OF PULMOTOR.

Went to the Police and Claimed the Suspenders With Which He Tried to Hang Himself.

(By Associated Press.) Duluth, Minn., Jan. 26.—Two days after he had been declared dead, but after resuscitation by a pulmotor, Alex McAlpine today claimed from the police the suspenders with which he tried to hang himself.

"Can't keep my trousers up without them," he explained.

TEXAS WILL GET BIG ROAD SUM

(By Associated Press.)

Washington, Jan. 25.—Secretary of Agriculture Houston today announced that Texas will receive \$583,855 for rural post roads, more than any other Southern state.

SOME EVIDENCES OF PROSPERITY

Many Bryan Firms Materially Increase Their Capacity by Making Extensive Improvements.

As the result of a successful fall's trade, many business establishments are making improvements. The farmer has gotten a big price for his products and as a result the merchants have prospered. They are making arrangements to take care of the spring business, which is expected to be the best in a number of years.

Webb Bros. are entirely changing the front of their store. Modern show windows are being installed and tile flooring is being laid in the vestibule. On the ground floor four new show cases are being placed in the center aisle, two show cases for the dress goods department and a ribbon wall case. Upstairs the ladies' hat department will be fixed up in the latest style. Two millinery wall cases with two mirror alcoves in them, and one center hat table will be added. Two more ladies' suit cabinets will be placed in the ready-to-wear department. An additional skylight is to be added, which will give much more light in the display room.

Johnson & Rohde are completely remodeling the sales and show room of their garage. A large number of carpenters and painters are now at work and when the change is completed this garage will be one of the best equipped in Central Texas.

Read & Stewart are installing an American sanitary soda fountain. This fountain is beautiful to look at and is sanitary in every respect. This new fixture greatly improves the appearance of the front view of their store.

Wells, Fargo & Co. are also keeping pace with the spirit of improvement now prevalent in Bryan. The south portion of the H. & T. C. depot, which is occupied by the express company, has been painted, a storage room built, and the accommodating agent, Mr. F. E. Hood, is now domiciled in a private office which is shut off from the checking and storage rooms. This improvement will greatly facilitate the handling of the company's large business.

M. H. James has recently received a candy display case made expressly for Rexall stores. Painted a snow white and kept spotlessly clean, it makes the store's complete line of box candies doubly attractive.

Work on the Astin building, Bryan's new skyscraper, is being pushed as fast as possible. The bricklayers are now at work on the fourth story and the Eagle was informed this morning the work of plastering will begin the latter part of the week. This building will be the pride of all Bryan and is one that would do credit to a much larger city.

What about that new depot? What about that new High School building?

Austin, Texas, Jan. 26.—The next meeting of the State Teachers' Association will be held at Waco, the executive committee decided today.

HARNESSING POWER FOUND IN ALPS

Great Dam Will Furnish Power to Send High Electric Energy Into Paris.

(Correspondence of Associated Press.) Paris, Jan. 5.—The water power of the Alps, the Pyrenees and the central mountainous region is playing a big role in the military effort of France and will have an even greater share in the after war economic struggle.

Many new hydraulic power plants, born of the war needs, are turning out shells, chemicals and other necessities for the army. Many others, born of the coal famine and its lessons, will replace steam power after the war.

France utilized 13 per cent of its total estimated natural water power in 1914. She was utilizing more than 20 per cent in July of this year and the proportion is every day increasing. Competent engineers fix at 4,600,000 horse power the energy France could secure from its waterfalls at low water, while 9,200,000 horse power is the estimate for average seasons. The total steam energy used in France before the war was only about 3,500,000 horse power, divided among about 64,000 establishments.

The water power of the Alps has given the name of the "Vale of Aluminum" to the valley of the Arc, where 93,000 horse power is used in transforming alumine into aluminum bars. La Romanche, in the wild valley from Bourg d'Oisans to Pont de Claix, is the "valley of carburet and metallic alloys," absorbing 62,000 horse power. Electrical steel plants are concentrating in the basin of the Arly, where one concern has installed a complete mill with electric furnaces run by turbines of 22,000 horse power. Seven important new plants are being built in the region of Grenoble.

In the valley of the Durance new plants aggregating 74,000 horse power for the electro-chemical industry are under way, while above Modane one of the biggest chemical works in France has acquired rights to about 120,000 horse power of waterfall that will be speedily utilized.

Hydraulic electrical plants in Central France have saved the family ribbon industry of Saint Etienne. The little home shops had begun to disappear, unable to compete with the mills. Electric motors of a quarter of a horse power have set this domestic occupation going again, keeping at home men and women who would otherwise be driven to the looms of the big mills. Little motors are used all through that region for cabinet making. Had they not existed before the war, it would be necessary to invent them or something equivalent for the use of the maimed soldiers.

The electric motor is counted upon also to solve the problem of farm help in regions accessible to current. Co-operative societies are being formed to buy current for distribution among the members, and the installation of a power station is being considered by one of them. A law to encourage and help such projects is now being considered in the chamber of deputies.

Electric energy for Paris brought from the Alps is the most ambitious project of the future. A dam 75 yards high in the Rhone at Genislev, backing up the water 14 miles to the Swiss frontier, will furnish a fall sufficient to operate a power station of 325,000 horse power and 240,000 kilowatts. The energy is to be transported to Paris in the form of an alternating current under a tension of 120,000 volts. The line of transmission will be 312 miles long.

One hundred and twenty million francs is the estimated outlay—the cost of about a day and a half of war to France.

This enterprise would alone economize 1,800,000 tons of the 20 million tons of coal France imported annually before the war. Engineers figure that current brought from the wiss frontier may be sold with sufficient profit in Paris at 3 centimes a kilowatt hour, an economy of about 50 per cent on the cost of current produced by steam before the war.

TERRIBLE TRAGEDY IN HILL COUNTY

One Man Killed, One Wounded and One Under Arrest—Family Affairs the Cause.

(By Associated Press.) Hillsboro, Texas, Jan. 25.—Will Glover, who killed his father-in-law, Dr. Hodge and wounded his son, Austin Hodge, is under arrest following the shooting at Bynum last night. Glover attempted to see his wife, who has been living with her father for some time.

BETTER TEACHERS FOR RURAL SCHOOLS

(By J. L. McBrien, School Extension Agent, U. S. Bureau of Education, Department of the Interior.)

With the eloquent and logical plea of J. Sterling Morton for professionally trained teachers still ringing in our ears, it is a good time to consider the views of a prominent man who saw this question in a very different light. This man served his state and country in many posts of honor. He was a man of means. His character was above reproach. It is hard to understand how a man of such ability, integrity and experience could hold such erroneous views as he did on the preparation of teachers for their work. After all the positions of honor which he had held, he was elected a member of the state senate. There was but one state normal school then (1901) in that state. A fight was on in the legislature to establish one additional state normal school, on which occasion this Nestor of the senate declared: "God Almighty makes teachers; you can no more make teachers at a normal school than you can make whistles out of pigs' tails at a butcher shop; we have too much education of the head already; educate the heels."

This is so utterly absurd as to merit pity rather than censure him who was the author of this declaration. God Almighty no more makes teachers than He makes lawyers or doctors. Training and experience make a lawyer. Training and experience make a doctor. Training and experience make a teacher.

Probably the most advanced opinion yet advocated by any man of prominence today in favor of professionally trained teachers and state normal schools is that of the United States commissioner of education, Dr. P. P. Claxton. Briefly stated it is this:

A six months' term of school with a professionally trained teacher at a salary of \$100 per month is a longer term and a cheaper and better school than a twelve months' term with a teacher of poor scholarship and no professional training at a salary of \$50 a month. We need enough state normal schools to provide a professionally trained teacher for every rural school in America. The people of the entire state are taxed to support the state normal school or schools, and are, therefore, entitled to their just share of the teachers who fit themselves for their work in these schools. And yet a very small number of normal school graduates ever teach in the rural schools because the city and town schools secure these professionally trained teachers. The demand for professionally trained teachers in city and town schools is greater than the present number of our state normal schools can supply under their present equipment. We, therefore, need a greatly increased number of normal schools or else a great increase in buildings, faculty and funds for our present state normal schools if our rural people are to receive fair treatment for the taxes they pay for the support of the state normal schools. The work of the state normal schools and professionally trained teachers is so important, so valuable, so necessary that we should establish a sufficient number of state normal schools to provide every rural school with a professionally trained teacher, even if we have to take the necessary money to do this from the state common school fund. In the end this would be a better policy of public economy than our present short sighted policy which is expensive and which sorely neglects our rural schools in the matter of properly trained teachers. This is evident from the fact that there are over 150,000 juvenile teachers teaching in the rural schools of our country at this time with less than high school education and no professional training.

The only way to have better rural schools is to have better rural teachers. The only way to have better teachers is to provide better opportunities for their preparation; require by law all who aspire to teach to make due preparation and then pay the teacher a salary commensurate with the service rendered. "If we reduce the wages of the school teacher we must raise those of the recruiting sergeant."

FEAR IS FELT FOR ALL FOREIGNERS WITH TROOPS OUT

CARRANZA WILL GET STRAIGHT NOTE FROM WASHINGTON.

United States Will Ask That All Persons Be Given Proper Protection.
Chinese Can Cross Line.

(By Associated Press.)
Washington, D. C., Jan. 25.—Coincident with the withdrawal of General Pershing's force from Mexico are urgent appeals probably will be sent by the United States to Carranza to make every possible effort to protect foreigners in the district that has been occupied by American troops.

Fear is felt particularly for the safety of the many Chinese who have been purveyors of supplies to the Americans. It was said at the state department Wednesday that if the Chinese considered themselves in danger and chose to cross into the United States no objection would be

made in spite of the act excluding them. They will not be given freedom to move at will in American territory, but will have the right of asylum so long as it appears to be dangerous for them to return to Mexico.

The administration is manifesting much interest in the continued mobilization of Villa forces at strategic points in the north, and considerable speculation was aroused by a report Wednesday that the rebels had cut the railroad south of Chihuahua. Such interruption of traffic if continued would interfere materially, it is felt, with the movement of the de facto government forces that are expected to garrison the district now held by Pershing.

Information reached here Wednesday that diplomatic agents of Great Britain and France in Mexico had protested formally against the seizure of the metallic reserve of the National Bank and the Bank of London and Mexico. The American government made representations some time ago, but a new inquiry as to the facts will probably be made, as it is shown that many Americans were interested either as stockholders or depositors.

A representative of a powerful banking house in New York said here Wednesday that the attitude taken by Carranza towards these banks has removed any remaining possibility that the de facto government might be able to borrow money in New York. No further advice was received Wednesday regarding the fate of the two priests being held in Zacatecas on the charge of conspiracy.

OCEAN FREIGHT RATE IS HIGH

Twenty Dollars a Bale on Cotton
From Galveston to Harve,
France.

Galveston, Tex., Jan. 25.—An ocean freight of \$4 per 100 pounds will be paid on 1000 bales of cotton, which were booked for export Wednesday from Galveston to Harve. This is believed the highest rate ever paid for transportation of cotton from this port.

COUNTRY SHOCKED BY REMARKABLE PRISON RECORD

FORTY ONE YEARS IN SOLITARY CELL.

Cell Lighted From Ceiling So Prisoner Could Not See Passersby
Learned Seven Languages.

(By Associated Press.)
Boston, Mass., Jan. 25.—Jesse Pomeroy, who has been 41 years in solitary confinement in the state prison at Charleston, was granted equal privileges with other prisoners by the state executive council Wednesday. Convicted of murder at 15, Pomeroy two years later was locked up in a cell lighted from a window in the ceiling so that he might not gaze on his fellowmen, and barred as far as possible from human companionship. Two years ago the sentence was enforced less rigorously to accord with modern ideas of prison reform.

Now, at the age of 57 years, Pomeroy will move into a cell where he can see passersby, will be allowed to exercise with other prisoners, sit with them at the church services and at the prison entertainments, and will be given such work in the prison shops as his somewhat enfeebled health will permit. Governor McCall announced Wednesday night that he approved the commutation.

Pomeroy was convicted of the brutal murder of two children, following a series of degenerate acts which had terrorized the South Boston and Dorchester districts of this city. He was sentenced to be hanged, but because of his youth the sentence was commuted to solitary confinement for life.

When Pomeroy began his sentence he was poorly educated. Now he can read in seven languages, and at the age of 57 is studying Arabic. He also has been diligently studying law as it bears on his case. Beyond attempts to escape he has been on the whole, his keepers say, a quiet and model prisoner.

WILL CUT DOWN BEER OUTPUT

London, Jan. 25.—In order to reduce the consumption of food stuffs by breweries, Baron Devonport, the food controller, has decided that the quantity of beer to be brewed for the year beginning in April shall be restricted to 70 per cent of the output of the previous year.

This means that only 18,000,000 barrels of beer will be produced, about half the output of the year preceding the war. Baron Devonport, in explaining the object of his order, said the restriction must not be deemed a measure of temperance or of social reform.

PEVERLEY-BOOKER.

Mr. Wallace Peverley and Miss Lola Booker were united in marriage at 6:30 yesterday afternoon at the home of Mr. and Mrs. Ralph Chatham, Dr. E. W. Solomon officiating. They have gone to San Antonio on a wedding trip. A more extended notice will appear in the social column Saturday.

SUBMISSION LOST IN FIRST TEST IN THE HOUSE

SHORT TWO VOTES OF NECESSARY TWO THIRDS.

Proposition Was For Submitting
Statewide Prohibition to a Vote
of the People of Texas.

(By Associated Press.)
Austin, Texas, Jan. 25.—The first test vote in the house on submission came this afternoon when the Bagby "bone dry" resolution was voted down, 93 to 46. The resolution required 95 votes to pass.

The fight opened with the introduction of Representative Morris' resolution for submission of statewide prohibition to a vote of the people. Representative Hunt defended his amendment, which would eliminate intra-state shipments of liquor.

Wants Itemized Statement.

Austin, Texas, Jan. 25.—A resolution introduced in the senate today instructs the comptroller of public accounts to submit itemized statements of all departmental expenditures during the past two years. It is aimed especially to see how \$125,000 for repairs to the state house was spent.

Must Get Recruits.

Austin, Texas, Jan. 25.—The house today engrossed the Nichols resolution, calling for submission of the question of statewide prohibition to the people of Texas. The vote was 92 to 47, and unless changes are made the issue is defeated, as 95 votes are necessary to pass.

ROADS STANDING UP.

Benchley Road Shows Up Well After
the Recent Rains.

A reporter for the Eagle accompanied Mr. S. R. Abney, one of the county road engineers, on a trip of inspection over the Benchley improved road this morning. The street this side of the H. & T. C. railroad tracks, in front of Oak Grove addition, was found to be in pretty bad condition and required some effort to be navigated by the engineer's car. North of the track, where the road improvement begins, there is a stretch of newly laid gravel which had received its first rain, and was in good condition, everything considered.

About three miles out we came to that section of the road where the gravel was first laid and had had time to thoroughly set and it was as smooth as the pavement on Main street. Mr. Abney explained that where there were washed places and chug holes in the road, they were being filled with gravel and would have to be dragged again after the rain.

Judge Maloney and the commissioners' court, in connection with the good roads advisory committee, are using every effort to secure for the county the very best roads possible, and it is believed when the roads are all completed and have been thoroughly set and finally graded, we will have a system of roads that will be the pride of all the county.

SIXTY MILLION FOR FORTIFICATIONS

Appropriation Bill Carries This Huge
Sum for Strengthening Coast
Defense.

(By Associated Press.)
Washington, Jan. 25.—Sixty million dollars for strengthening and maintaining coast defense would be provided by the fortifications bill reported favorably Wednesday to the house. New defenses for New York, including great works at Fort Rockaway and batteries at Fort Michie at the Eastern entrance to Long Island sound, are included.

Boston, the entrance to Delaware bay, Chesapeake bay, San Francisco, Puget sound and other strategic points are provided for in the manner previously outlined to the military committee of congress.

The bill appropriates \$4,800,000 for purchase and maintenance of a number of squadrons of hydro-aeroplanes for use in connection with seacoast defense. Of this amount \$1,200,000 is for aviation in the insular possessions.

An appropriation is also made for emplacement for 18 12-inch long range guns which the war department contemplates putting at Portland, Me., Boston, Ft. Hancock, Del., Pensacola, Galveston and New Bedford.

BEWARE, MR. SPEED KING.

The City is on Your Trail With a
Motorcycle Officer.

Good roads are good things, excellent investments, but they inevitably lead to one end. The automobile owner must test out his machine when he reaches a good stretch of road, regardless of other traffic. As matters stand now, it is really unsafe for a child to go to town or school if it has to cross many of our newly paved streets. The automobile rushes down these streets without sufficient warning to pedestrians or other travelers in less pretentious conveyances, and it is truly a miracle that more accidents have not happened on these intersecting crossings.

Announcement was made this morning that the city had engaged the services of Mr. C. S. Gainer, Jr., as motorcycle officer, instructing him to file complaints against anyone exceeding the speed limit of 12 miles per hour within the city limits. He is riding a high powered Indian motorcycle and don't try to outdistance him and escape the penalty. Instead keep within the prescribed limit and you will not be molested.

FOOD OUTLOOK IN GERMANY GLOOMY

A General Air of Depression Prevails.
Short Potato Crop the Cause.

(By Associated Press.)
Berlin, Jan. 25.—The advisory committee of the war food bureau has concluded a two day session devoted to a general review of the food situation. A detailed statement in regard to conditions throughout the empire was made by Adolph Batocki, president of the food regulation board.

Herr Batocki said that the chief difficulty lay in the shortage of the potato crops, enhanced by transportation troubles. He said that although the grain crops had been better than in 1915, the total nutritive value of the grain and potatoes together was less, and economical feeding was necessary to carry the population to the end of the crop year.

Herr Batocki complained that the situation was aggravated by the richer people buying underhand at fancy prices what they wanted and thus thwarting the work of the food office.

He said that allotments of barley to the brewers were hardly more than enough to produce beer for the army and laborers employed on heavy work.

Quick Cold Relief

is usually found through the prompt administration of a mildly laxative, digestive tonic—one that will soothe the inflammation, remove the waste, and help Nature to build up resistance.

Peruna is That Tonic.

Its action is prompt, usually very effective, and its use is without harmful effects. Every household should keep it at hand for this purpose, and every catarrhal sufferer should regularly use this reliable remedy.

The tablet form will be found very convenient. A tablet or two at the very beginning of a cold will frequently prevent its development, and these tablets may be taken regularly with beneficial results.

Many prefer the liquid form which for nearly half a century has been the reliance of the American Home. Both are good. Your druggist can supply you.

Kirstin Stump Puller One Man — Horse Power

Every Kirstin is guaranteed for 15 years, 24w or no raw. Your money back if the Kirstin bond does not live up to its promise. The Kirstin method clears land from 10 to 50 percent cheaper than any other. We guarantee this, too.

For nearly a quarter century the Kirstin Horse Power Stump Puller has proved its superiority on Southern stump lands. Thousands of Southern farmers have been started on the road to prosperity by a Kirstin.

It is designed for Southern work and will pull anything it tackles, be it a thick, green pine, a deeply imbedded tap root or a field of hundreds of heavy stumps. The new triple power and automatic take-up enable it to perform the heaviest work with rapidity, certainty and without strain on man, horse or machine.

The One Man Puller gets the biggest stumps, too. Horses unnecessary. Double leverage gives you a giant's power; a push on the handle means a pull of tons on the stump. Clears an acre from one anchor and clears it ready for the plow.

COTTON SEED MEAL BREAD.

Mr. H. L. McKnight brought to the Eagle office a sample of cotton seed meal bread made by his daughter, Miss Bernardine McKnight, who is a student of the College of Industrial Arts at Denton, that is the wonder of all who have seen it. It is perfect in every particular and is an exact reproduction of the famous Boston brown bread. Cotton seed meal is the base of the bread, a little flour is used and other ingredients that enter into the composition of first class bread. The sample is a splendid object lesson of excellent work being done at this institution which is training in a practical and scientific manner the future homemakers of Texas.
